

START YOUR ENGINES!

Your Xtime Implementation Checklist

You're ready to start enjoying the operational and customer loyalty benefits of the industry's leading service experience platform. Now it's time to set your dealership up for transition success by checking all the boxes on this simple pre-implementation checklist.

1

DMS INTEGRATION INFORMATION

Your implementation team will need details and information about integrating with your current DMS provider. Identify this information now to ensure a seamless transition.

2

EMPLOYEE LIST

Who will use your new Xtime tools? Start gathering your employee lists and write down names for everyone who will need a login.

3

OPCODES IN YOUR SERVICE DEPARTMENT

You will need to provide the opcodes and current service pricing to your Project Manager to ensure that you're displaying accurate pricing to your customers when you launch these products.
